CAAMAGNO**

"Había

que

intentalo".

"It had to be tried".

FAMILIA CAAMAGNO are back!

Sigüeiro's five infra-beings are back more dancing and energetic than ever with their new album:

"HABÍA QUE INTENTALO".

In this new LP Familia Caamagno display a compendium of pop melodies, frenetic rhythms and choreable lyrics with the only aim of making the most dynamic youth of the STATE dance.

We have before us a new album, The album consists of eight songs and a bonus track, in which you can find authentic contemporary hymns of the ENERGETIC POP, such as *Castromil*, *O peor non son os cartos* or *Un día espectacular*. Dialoguing with his previous albums, they continue in the rock & roll of 60's inspiration but with a renovating eagerness: *Tabernas e rotondas*, *Cocogualla* and *Proceso Soberanista*. Now, far from the purest of purism, the Caamagno surprise us with two cuts: *Guapos de primeira*, inspired by overseas rhythms and *Canción Moderna de Oriente*, probably the most descriptive title in history.

This new artefact was recorded between 2 and 7 February in the Circo Perrotti studios in Gijón. Like the two previous ones, it is produced, mixed and mastered by Jorge Explosión, except for the cut *Canción Moderna de Occidente*, which is produced, recorded and mixed by Hevi in the Laboratorio Soyuz and mastered by Cem Oral at Jammin' Masters (Berlin) in May 2018.

This brand new album of the Caamagno Family is proudly edited by the Cantabrian and Oviedo record company Folc Records and the great design is by Leo Sousa. Familia Caamagno, the Galician band that started more chainsaws, the one that spends more in clothing, the one that had the uric acid dangerously high at the age of ten...RETURN! because...

"IT HAD TO BE TRIED"

PRESS.

"We start with a good record, the recognition of that excellent

sound work that falls on this occasion on the new work of the Caamagno Family, 'Había que intentaro'. The Galician quintet has signed with FOLC Records, something that can be a great help to a band that in the studio leaves us dizzie, but live it

leaves us exhausted, because we are unable to stop for a second" **El Patillas DJ. Radio 3.**

"Familia Caamagno deliver their best album to date and continue in a phase of permanent growth" **Fernando Fernández Rego. Rock Deluxe.**

"Five fork pop, battered in filloas and lyrics sunk between Monday's orballo and the weekend's night out". **Marcos Gendre.**

Construction area.

Although his sound is continuous with previous releases, they maintain their taste for 60's rock, the melodies grow and gain freshness, approaching the immediate hit in tracks like "Castromil" or "Un día espectacular". **La Fonoteca.**

Family Caamagno continues to amaze us with their innate ability to compose songs that start from the sixties roots and enter, by the work and grace of these Galicians, to be part of their original repertoire, always fun and exciting. ...] their music deserves all the congratulations possible because these kids are some of the best that our scene has, not only in Spain but also internationally". **Magig Pop.**
